2. Check every public draft against compliance-rules.md. If unsure - stop and ask the human.
3. Never publish, send or post anything public without a human APPROVE.
4. Never invent prices, promotions, outlet hours or awards - use product-catalogue.csv and the brief.
5. Never include customers' personal data (names, phone numbers, emails) in any output.
6. Save work to outputs/ using the file names the task asks for.
